ELECTRICAL POLICY

Notice is hereby provided to all vendors that the electrical pedestal or plug from which you obtain power at the festival site shall remain exactly as you find it upon set up. If there are any electrical connections to be made other than an extension cord, you must contact the festival office who will report your requirements to the electrical coordinator. If any alterations are found during the festival or following the event, the vendor will be responsible for the cost to replace or repair the original equipment.

If there is more than one vendor per pedestal, both vendors will be held responsible for alterations in the electrical equipment and be charged for damages incurred, unless the responsible party steps forward. This policy insures the safety of our vendors, operators and festival visitors, and we require complete cooperation.

TENT RULES

The following rules apply to everyone whose exhibit is housed under a tent provided by Suffolk Festivals, Inc. (i.e., Commercial Tent, Arts & Crafts Tent).

These rules are for the safety of everyone. If problems arise, immediately contact the on-site Festival office.

1. Only tent company personnel are permitted to move tents. There are no exceptions.
2. Tents must be evacuated if winds develop over 40 mph as ropes and/or poles could break causing bodily injury.
3. Tent locations can not be changed after set up begins without an additional charge.
4. Do not untie stake lines. Guy lines provide tension on the structure and keep it up.
5. Do not remove any poles out of the tent. To do so severely weakens the structural stability.
6. Do not put nails, staples, wire or any other object through the fabric of the tent or sidewalls.
7. Do not detach the sidewalls. If they are in the way, roll them up and either reverse every other snap or tie them up to secure them in the rolled up position.
8. After the event and prior to take down, remove all decorations and accessories you have added.
9. Electric heaters are not allowed in the tents and no combustible materials including straw, hay or shavings can be used in displays. This is a Fire Code requirement set forth by the Suffolk Fire Marshall.

NOTES FROM THE SUFFOLK FIRE DEPARTMENT

All tent owners/occupants are required to have a current Certificate of Flame Resistance complying with local Fire Code and NFPA 701 codes on file at the festival office. The use of EZ-UP tents must be pre-approved.

- Concession booths using deep-fat frying must have a Type K fire extinguisher on hand. Those not using deep-fat frying may have a five-pound ABC dry chemical fire extinguisher on hand.
- Heating appliances are not allowed in the tents.
Combustible materials such as hay, straw, shavings or similar materials are not allowed within any tent.
- All combustible trash shall be removed daily.
- No flammable or combustible substances such as gasoline or LP gas can be stored in tents.
- Open flames, i.e., candles, torches, etc., are prohibited without prior approval from the festival office and the Suffolk Fire Department.
- Fire lanes must be maintained in accordance with Fire Department requirements.
- Open air burning of trash, waste or debris is prohibited.

I have read fully the contents of this Exhibitor Application packet and will abide by all rules and regulations. I also agree to review with all co-workers the full content of this information to ensure that all the rules and regulations are adhered to by all involved with my exhibit.
